ABOUT ME

I am Dang Le Hoang Anh, a student of Information Technology with a passion for developing modern web products. With good communication skills, a spirit of continuous learning and problem-solving skills, I am always ready to take on challenges in the Frontend field. I wish to contribute to the development of technology at the company I work for, while constantly developing myself and improving my expertise. I have a solid IT background through my studies and self-study, although I have no formal work experience.

SKILLS

HTML, CSS

JAVASCRIPT

VueJS

My SQL

Java Oop

ReactJS

GitHub

MongoDB

Java Oop

Dart
